## Five-Year Index: Volumes 5-9

This is the first five-year index for *Behaviorology Today*. It lists the references to the main articles that appeared in volumes 5 through 9 as these were the first five volumes under this name. (All issues have been on time, with some actually having been a little early—a practice that continues.) Most of the references are listed by volume in their order of inclusion in each issue. Where content is not clear from the title, an annotation is provided.

Since the eight issues of volumes 1 through 4 (Spring and Fall, 1998-2001) appeared under the title *TIBI News Time (TNT)*, most of the main articles of those eight issues were reprinted in the two abnormally long issues of Volume 5. As a result, those two issues each contain many more articles than the issues of later volumes. (Also, only selected editorials are listed in this index.)

Some issues in later volumes only show one or two articles in this index. However, these issues also contain several TIBI course syllabi. These syllabi are not included in this index because the list of syllabi (the *Syllabus Directory*) is printed at the back of each issue, with the most up-to-date *Syllabus Directory* at the back of the latest issue (e.g., see p. 35 of this issue).✻
