Third Five–Year Index:
Volumes 15–19

This is the third five–year index for the TIBI journal. It covers volumes 15–19. Volume 15 was the last volume under the name, Behaviorology Today. Volumes 16–19 were the first volumes under the name, Journal of Behaviorology. Phil Johnson served as Editor for Volumes 15, 16, and 17, while James O’Heare served as Editor for Volumes 18 and 19 (and 20).

This Index lists the references to the main articles that appeared in these volumes, which covered the years 2012–2016. Most of the references are listed by volume in their order of inclusion in each issue. If content is not clear from the title, the entry includes an annotation.

Occasionally, Behaviorology Today (BT) included a piece that went through the full peer–review process. According to BT policy, when this was the case, a notice to that effect was included with the piece. Beginning with volume 15, everything received full peer review.

The last index—which was the second five–year index, for volumes 10 through 14 (2007–2011)—appeared in Volume 14, Number 2, Fall 2011, pp. 11–12. The first five–year index, for volumes 5 through 9 (2002–2006) appeared in Volume 9, Number 2, Fall 2006, pp. 32–34. (Volume 5, and the first five–year index, included the main articles of volumes 1 through 4 [1998–2001], which appeared while the journal was called TIBI News Time.)

Some issues only show one or two articles in this index. However, these issues may also contain TIBI course syllabi. These syllabi are not included in this index because the list of syllabi (the Syllabus Directory) is printed at the back of each issue, with the most up–to–date Syllabus Directory at the back of the latest issue. Nevertheless, an annotation appears regarding these syllabi for these issues.

Volume 15 Number 1 (Spring 2012)

Volume 15 Number 2 (Fall 2012)

Volume 16 Number 1 (Spring 2013)

Volume 16 Number 2 (Fall 2013)

Volume 17 Number 1 (Spring 2014)

Volume 17 Number 2 (Fall 2014)

Volume 18 Number 1 (Spring 2015)

**Volume 18 Number 2 (Fall 2015)**

**Correction**

This is the correct version of Figure 1 that appeared incorrectly on page 17 in O’Heare, J. (2017). ON TERMS: Correct classification of conditioned punishers as added versus subtracted stimuli. *Journal of Behaviorology, 20* (1), 16–18.

**Volume 19 Number 1 (Spring 2016)**

**Volume 19 Number 2 (Fall 2016)**

---

Figure 1. Diagram depicting the complete range of postcendent events resulting in changes in behavior. R = unconditioned reinforcer or where its status as conditioned or unconditioned is unspecified. P = unconditioned punisher or where its status as conditioned or unconditioned is unspecified. r = conditioned reinforcer and p = conditioned punisher. + = added and - = subtracted. Adapted from Ledoux (2010; 2015). By convention, capital letters are used where the conditioned versus unconditioned status are unspecified.
