

Fourth Five-Year Index: Volumes 20–24

This is the Fourth five-year index for the TIBI journal. It covers volumes 20–24 of *Journal of Behaviorology* (previously, *Behaviorology Today*). This Index lists the references to the main articles that appeared in these volumes, which covered the years 2017–2021. Most of the references are listed by volume in their order of inclusion in each issue. All articles are fully peer reviewed. If content is not clear from the title, the entry includes an annotation.
